Education

Mehran University of Engineering and Technology, Jamshoro, Sindh
Bachelors of Engineering in Software Engineering

Oct 2018 - Oct 2022
GPA: 3.57

University of Central Missouri, MO, Unites States
Global UGRAD, Semester Exchange Program

Jan 2022 - May 2022
GPA: 3.75

Technical Skills

Languages and FrameWorks: Java, HTML, CSS, JavaScript, C#, AngularJS, SQL, Git, GitHub, LaTeX.

Tools: Eclipse, VsCode, MicroSoft SQL server, MySQL, Visual Studio, Jira, Toad, OverLeaf.

Creative Skills

Design: Typography, Posters, Banners, Stationary Design, Social Media Posts, Logos, Animations, UI/UX.

Design Tools: Adobe illustrator, Adobe Photoshop, Adobe After Effects, Adobe XD

Internship

Times Group Private Limited
Web Developer Intern

Sept 2020 - Oct 2020

- Developed and implemented new features for the company's website using HTML, CSS, and JavaScript, improving its functionality and user experience.
- Collaborated with the development team to troubleshoot and debug issues, ensuring a smooth and error-free user interface.
- Assisted in the design and implementation of responsive web pages to ensure optimal performance across different devices.

Work Experience

Impetus Systems pvt ltd
Software Engineer 1

Jan 2023 - Sept 2023

- Proficiently handle both front-end, back-end, and database development simultaneously to ensure seamless integration and optimal performance.
- Successfully created and implemented a budgeting module for the HR management web application, incorporating approval routing for budget planning and position allocation within given constraints.
- Collaborate closely with cross-functional teams, including designers and testers, to ensure cohesive development and delivery of high-quality products.
- Actively participate in code reviews and troubleshooting sessions to maintain code quality and resolve any issues promptly.
- Demonstrate strong problem-solving skills and adaptability in a fast-paced environment to meet project objectives and deadlines effectively.

Blue Marketing
Creative Designer

Nov 2020 - May 2022

- Designed multiple logos for different restaurants, ice cream shops, and clothing brands, ensuring a visually appealing and distinctive brand identity.
- Created engaging and eye-catching social media posts, including posters, animations, and videos, for various clients to promote their products and services.
- Collaborated closely with clients to understand their brand vision and translate it into visually appealing design concepts.

Projects

AamRush

- Developed a responsive and educational game called AamRush, designed for kids to learn about different types of mangoes.
- Implemented a time-based challenge where a mango character needs to collect candies within a specified time limit.
- Incorporated interactive elements to engage young learners and provide an enjoyable gaming experience.

Image Search Engine

- Utilized VGG16, a convolutional neural network model, to extract features from images in the dataset and the query image.
- Leveraged TensorFlow Keras, a popular deep learning framework, for implementing the image feature extraction process.
- Designed the user interface to provide a seamless and intuitive experience for uploading images and displaying search results.

Drum Kit

- A simple web application, created for kids.
- Utilized event handling techniques in JavaScript to capture user interactions with the virtual drums and trigger corresponding sounds.
